SITUATION

You have to present a **written version of a project** you have done to apply to a public tender related to technology.

Your document must:

- Include every section of a proper written project
 - Abstract
 - Introduction
 - Methodology
 - Conclusion
- Not be longer than 2 pages
- Describe a project accordingly to what you learned in this module
- Include facts, figures and examples when necessary

For your written project, consider the following:

- Divide your text into sections
- Express your ideas clearly
- Present the information in a logical sequence
- Use appropriate grammar and vocabulary
- Use appropriate punctuation and style
- Give accurate and precise information
- Use appropriate technical vocabulary
- Consider the different writing styles for every section of your document
